 - **Coursework:** Introduction to Python, Web Development, Introduction to Computation, Human Centered Design, Programming Methodology, Object-Oriented Programming, Data Structure, Probability

Experience

- Web Developer, Line Cook, and Barista**, Eggroll Cafe – Lowell, MA January 2023 – Present
- Design and implement a detailed, responsive, and user-friendly website to enhance online presence and customer engagement by showcasing the menu, brand, and services.
 - Train and collaborate with team members in both barista and line cook roles, ensuring they can master complex tasks in the kitchen with precision.
 - Work in a high-pressure environment and manage multiple tasks simultaneously to ensure a smooth workflow during peak hours.

- Pharmacy Technician**, CVS Pharmacy – Chelmsford, MA July 2022 – January 2024
- Communicated with patients about prescriptions and arranged consultations with pharmacists.
 - Dispensed medications in compliance with company and regulatory standards, collaborating with pharmacists to verify prescriptions, maintain accurate records, and address patient inquiries on dosage, insurance, and drug interactions.

- Girls Who Code and Pluralsight**, Bank of America – Remote Position July 2023 – August 2023
- Learned about Cyber Careers in Financial institutions such as threat landscapes, threat detections, and concepts such as "phishing", "wishing", "smishing".
 - Concept deep dives, hands-on application, and collaboration with peers, focusing on professional development workshops with senior leaders and engineers.

Projects

- Eggroll Cafe Website** eggrollcafe.com/home-2024
- Manage and enhance the Eggroll Cafe website with a user-friendly interface, ensuring an up-to-date menu, engaging blog content, and streamlined catering orders.
 - Tools Used: WordPress, Elementor

- Personal Website** github.com/person-website
- Developed a personal website to showcase my resume, interests, hobbies, and demonstrate proficiency in static website development.
 - Tools Used: JavaScript, HTML/CSS, Tailwindcss

- Expenser** github.com/expenser
- Developed an app that allows users to split expenses among friends and family by assigning the items to people by parsing the receipt item's abbreviations into readable/identifiable list for the user to split their bills.
 - Tools Used: JavaScript/TypeScript, React Native, Gemini AI, Firebase Database

Technologies

Languages: JavaScript, C, Java, HTML/CSS, Python

Technologies: VSCode, Github, Linux, WordPress, Elementor
